TOUCHWOOD DESIGNS

At Touchwood Designs, we believe a healthy home starts with healthy design. With over five years of experience and more than 1.5 lakh sq. ft. of interior spaces delivered, we've pioneered a health-first interior style—engineered to positively impact your daily well-being.

We are now bridging the gap between organic wellness and modern innovation by blending intelligent home automation with the creativity of bespoke interiors. Our new range doesn't just look beautiful; it thinks for you.

**TOUCHWOOD DESIGNS COLLABORATION
WITH DVE AUTOMATION**

Brighten up your home with a Touch of COLOR.

Color is the latest in Home automation technology, and it's the best smart touch panel available in India. With its sleek design and advanced functionality, Color is a game-changer in the world of home automation with RGB LED colors to customize your Touch switch. You can adjust the saturation and brightness of any color to create your perfect shade. And with the ability to set cool icons for your switches, you can truly make it your own.
